HOW IT ALL BEGAN

The call for tank containers

“Hi Arthur! I want to ship **chicken fat** to Europe from Houston and i need 5 tank containers. But there’s no availability here. Please help me out and ship them from Rotterdam to Houston directly.”

The solution

“Hi Mike! I found the T1 tank containers you need for your shipment in……HOUSTON! They are located 50 miles from your office.”

Co founder Arthur experienced the problems that searchers encounter on a day to day basis.
Then he decided to start thinking about a solution that could help both demand and supply.
